Health and Wellness – E Estes
Finance – C Burlingame
Safety – L Wilson/L Tondereys – First meeting 19th at 9am
Communications – C Melbardis

Student Report:

Everything going well with beginning of school year.
Music room beautiful. May be installing carpet on floor.

“Lots of blue.”

Sky cylinders are “very cool.”

Have a staggered lunch now. 5th/6th and 7th/8th. Getting in routine of new lunch line. Everyone gets a chance to eat first/play second. Monday/Thursday - 5th/6th first. Tuesday/Fri - 7th/8th first. Tuesdays there will be "breakfast for lunch" with pure maple syrup – but only a little bit.

Regarding ice cream sales, working on logistics now.

Community Service Discussion:

Lindsay Wilson will be talking to Ms. Jelen and Bea McMillan about current efforts.

Every child in 7th grade in the school also now goes through Service Innovation and Life Skills program.

All 8th graders will also participate in a coordinated community service program already. Point was made that it is only for one trimester.

5th and 6th graders are grade levels that need more community service opportunities at Kent. Need to locate Parents to run the Community Service Club. Best to coordinate with the other efforts that are already taking place at the school.

Need Parent that could run the Community Service Club at lunch. L Bridges offered to do so with E Estes.

Potential partnership with a similar community service youth program could be discussed at a lunch club. Having children come up with the ideas is important.

Discussed that there is need in Marin and beyond that we could help with possibly. Around the state and across the country and nation.

E Estes to follow up with interested parents and L Bridges for next meeting. C Burlingame also offered to assist.

Back 50 Renovation:

Have results of student interest inventory.

Will invite architects to October 2 meeting and have a future conversation about input on development and potential site visits.
